

HEALTH AND SAFETY STATEMENT FOR PRIMARY SCHOOLS

Introduction

1. Under the Health and Safety at Work etc. Act 1974, it is the duty of every employer to have an up-to-date written statement of health and safety. This policy must also detail the organisation and arrangements for the management of health and safety.
2. The model policy found below is based on the criteria for schools where the Authority is the employer. It is for the governing body (as the employer) of foundation, voluntary aided and academy schools to determine whether to adopt these arrangements. Where they do, the school should ensure it is customised to fit their individual circumstances.
3. Adopting the model policy is the best way of complying with the Authority's Health and Safety Policy. Demonstrating compliance with statutory duties could be difficult in the absence of a school specific policy.
4. This document provides a customisable template for schools to adapt.
5. Schools should ensure that Section 2 Organisation and Section 3 Arrangements are customised to reflect the individual arrangements of the school.
6. The safety policy statement should be signed and dated by the Head Teacher / Chair of Governors
7. When complete the school specific policy should be communicated to all staff, and automatically issued to new staff as part of their induction process.
8. It is recommended that the school specific policy be reviewed periodically to ensure it remains current - the Authority recommends at least every two years.
